

# IVAYLO ILIEV

Plovdiv, Bulgaria | +359 88 657 5995 | [ivaylo.iliev.2003@gmail.com](mailto:ivaylo.iliev.2003@gmail.com)  
<https://github.com/MultiTron>

## Skills

- **Languages:** Java, C#, Python, JavaScript/TypeScript, SQL
- Solid experience with **backend frameworks like Spring/Spring Boot**
- Good knowledge of OOP and Algorithms and Data Structures
- Fluent **English** speaker

## Education

### University of Plovdiv | Bachelor of Software Engineering

2022 - Present

Building upon the knowledge acquired through my time at IT Career and learning subjects like **distributed applications, networking and REST APIs, design patterns and frameworks.**

### It Career | Professional Qualification - Application Programmer

2018 - 2022

Learned most of the basics about programming like **variables, conditional statements, loops, collections, algorithms.**

## Experience - more projects on my [GitHub](#)

### Remote Phone to PC YouTube video sharing

Currently developing a **Mobile application** in **Kotlin** that allows the user to **share a video with the app** and then **send it to a PC on the local network**. The system uses **Network Service Discovery** to allow for seamless connection between the devices.

### Music Bell Application for a High School

Developed an **WinForms application** which plays a random song from a list through a system of speakers signaling students the beginning and end of class.
